

APPENDIX "D"

POPLAR BLUFF MUNICIPAL UTILITIES AND CITY CABLE

ELECTRIC RESIDENTIAL RATES

AVAILABILITY

Applicable to all residential customers taking service through a single meter for domestic uses, inclusive of lighting, air conditioning, refrigeration, water heating, small appliances and space heating.

RATE

Customer Charge (Monthly Minimum).....	\$15.25
Energy Charge per kWh	
Winter Rate (September 15 to May 15)	
For the first 800kWh's.....	\$0.0940
For all over 800kWh's.....	\$0.0680
Summer Rate (May 16 to September 14)	
For all kWh's.....	\$0.08590

BUDGET BILLING PLAN

See Company Policy Manual

LATE PAYMENT CHARGE

Subject to ten percent (10%) penalty if not paid by the date shown on the bill.

SPECIAL RULES

The voltage, frequency, and phase of all service under this schedule shall be only as specified by the Company.

Service under this schedule shall be subject to Company Policy Manual.

Service is furnished for the sole use of the customer on the premise described in the service application. There shall be no resale or submetering of energy.

Motors served on this schedule shall not exceed a size and design as specified by the Company.

The above rate or minimum does not include any Gross Receipts Tax. The Purchase Power and Fuel Adjustment Clause are applicable to all charges under this schedule.

ELECTRIC COMMERCIAL NON-DEMAND RATES

AVAILABILITY

Applicable to all purposes of commercial customers, inclusive of lighting, air conditioning, refrigeration, commercial water heating, appliances and power uses. Actual Demand is no greater than fifty (50) kilowatts (kW).

RATE

Customer Charge (Monthly Minimum).....\$65.00

Energy Charge per kWh
Annual Rate (January 1 to December 31)
For all kWh's.....\$0.0845

LATE PAYMENT CHARGE

Subject to ten percent (10%) penalty if not paid by the date shown on the bill.

SPECIAL RULES

The voltage, frequency, and phase of all service under this schedule shall be only as specified by the Company. Service under this schedule shall be subject to Company Policy Manual.

Service is furnished for the sole use of the customer on the premise described in the service application. There shall be no resale or submetering of energy.

Motors served on this schedule shall not exceed a size and design as specified by the Company.

When a non-demand metered customer's energy usage exceeds three thousand eight hundred (3,800) kWh in two (2) billing periods out of the most recent twelve (12) billing periods, the Company will install a demand-type meter in order to determine the customer's eligibility to remain on this rate schedule. When a demand metered customer's actual demand exceeds fifty (50) kW in two (2) billing periods out of the most recent twelve (12) billing periods, the company will place the customer on an appropriate rate schedule.

The above rate or minimum does not include any Gross Receipts Tax. The Purchase Power and Fuel Adjustment Clause are applicable to all charges under this schedule.

ELECTRIC COMMERCIAL DEMAND RATES

AVAILABILITY

Applicable to all purposes of commercial customers, inclusive of lighting, air conditioning, refrigeration, commercial water heating, appliances, and power uses.

RATE

Customer Charge (Monthly Minimum).....	\$65.00
Premise Demand Charge	
For all kW.'s.....	\$2.50
Energy Charge per kWh	
Annual Rate (January 1 to December 31)	
For all KWh's.....	\$0.0808

DETERMINATION OF ACTUAL kW

The Actual kW shall be the maximum fifteen (15) minute demand measured during the current billing period.

LATE PAYMENT CHARGE

Subject to ten percent (10%) penalty if not paid by the date shown on the bill.

SPECIAL RULES

The voltage, frequency, and phase of all service under this schedule shall be only as specified by the Company.

Service under this schedule shall be subject to Company Policy Manual.

Service is furnished for the sole use of the customer on the premise described in the service application. There shall be no resale or submetering of energy.

Motors served on this schedule shall not exceed a size and design as specified by the Company.

The above rate or minimum does not include any Gross Receipts Tax. The Purchase Power and Fuel Adjustment Clause are applicable to all charges under this schedule.

ELECTRIC COMMERCIAL HEAT RATES

AVAILABILITY

Applicable to separately metered electrical heating and combined air conditioning units. Not for new construction.

RATE

Customer Charge (Monthly Minimum).....	\$65.00
Energy Charge per kWh	
Winter Rate (September 15 to May 15)	
For all kWh's.....	\$0.0621
Summer Rate (May 16 to September 14)	
For all kWh's.....	\$0.0788

LATE PAYMENT CHARGE

Subject to ten percent (10%) penalty if not paid by the date shown on the bill.

SPECIAL RULES

The voltage, frequency, and phase of all service under this schedule shall be only as specified by the Company.

Service under this schedule shall be subject to Company Policy Manual.

Service is furnished for the sole use of the customer on the premise described in the service application. There shall be no resale or submetering of energy.

Motors served on this schedule shall not exceed a size and design as specified by the Company.

The above rate or minimum does not include any Gross Receipts Tax. The Purchase Power and Fuel Adjustment Clause are applicable to all charges under this schedule.

ELECTRIC AVOIDED RATES

AVAILABILITY

Applicable to approved net metering installation.

RATE

Energy Credit per kWh

Solar For all kWh's.....\$0.02525

SPECIAL RULES

The voltage, frequency, and phase of all service under this schedule shall be only as specified by the Company.

Service under this schedule shall be subject to Company Policy Manual.

Service is furnished for the sole use of the customer on the premise described in the service application. There shall be no resale or submetering of energy.

Municipal Utilities shall credit customer-generator for electric energy on monthly basis.

ELECTRIC POWER RATES

AVAILABILITY

Applicable to all General Power customers using electrical service exclusively for manufacturing, processing and production and requiring in such industrial operations a connected load of 50kVA or more. Lighting not to exceed twenty percent (20%) of total installed capacity.

RATE

Customer Charge (Monthly Minimum).....	\$1,600.00
Premise Demand Charge	
For all kW's.....	\$1.67
Energy Charge per kWh	
Annual Rate (January 1 to December 31)	
For all kWh's.....	\$0.06577

DETERMINATION OF ACTUAL kW

The Actual kW shall be the maximum fifteen (15) minute demand measured during the current billing period.

LATE PAYMENT CHARGE

Subject to ten percent (10%) penalty if not paid by the date shown on the bill.

SPECIAL RULES

The voltage, frequency, and phase of all service under this schedule shall be only as specified by the Company.

Service under this schedule shall be subject to Company Policy Manual.

Service is furnished for the sole use of the customer on the premise described in the service application. There shall be no resale or submetering of energy.

Motors served on this schedule shall not exceed a size and design as specified by the Company.

The above rate or minimum does not include any Gross Receipts Tax. The Purchase Power and Fuel Adjustment Clause are applicable to all charges under this schedule.

ELECTRIC POWER RATES PRIMARY METERING

AVAILABILITY

Applicable to General Power customers using electrical service exclusively for manufacturing, processing and production and requiring in such industrial operations a connected load of 5,000kVA or more, served by primary metering at 13,200 volts. Lighting not to exceed twenty percent (20%) of total installed capacity.

RATE

Customer Charge (Monthly Minimum, no proration for partial months).....	\$1,600.00
Premise Demand Charge, Actual kW (per month, no proration for partial month) Per kW.....	\$1.67
Energy Charge per kWh (applies year -round, January 1 to December 31) per kWh.....	\$0.0600

DETERMINATION OF ACTUAL kW

The Actual kW shall be the maximum (peak) fifteen (15) minute demand measured during the applicable billing period.

LATE PAYMENT CHARGE

Subject to ten percent (10%) late payment charge per thirty (30)-day period (or portion thereof) if not paid by the date shown on the bill.

SPECIAL RULES

The voltage, frequency, and phase of all service under this schedule shall be only as specified by the City.

Service under this schedule shall be subject to City Ordinances and the City Policy Manual adopted by Code Section 700.040, including as it may be amended.

Service is furnished for the sole use of the customer on the premise described in the service application. There shall be no resale or submetering of energy for use by others.

Motors served on this schedule shall not exceed a size and design as specified by the City.

The above rate or minimum does not include any Gross Receipts Tax. The Purchase Power and Fuel Adjustment Clause are applicable to all charges under this schedule.

Schedule effective as of _____

Electric Rate Effective October 8, 2019

Ordinance #19-59

ELECTRIC ECONOMIC DEVELOPMENT RIDER

PURPOSE

The purpose of this Economic Development Rider (EDR) is to encourage industrial and commercial development and thereby increase economic development opportunities in the City's service area.

AVAILABILITY

Electric service under this Rider is available to certain customers otherwise qualified for service under the City's electric power rates for Primary Metering Service that also meet the criteria stated herein on a first come, first serve basis as determined by the execution of the contract specified herein. The availability of this Rider shall be limited to qualified customers not involved in selling or providing goods and services directly to the general public. The City will consider all requests for service under this Rider; however, requests will not be accepted for new or expanded facilities built, installed, under construction or otherwise committed to operation prior to March 1, 2019. Electric service under this Rider is not available in conjunction with service provided pursuant to any other special contract agreements.

APPLICABILITY

Sufficiently detailed information shall be provided by the Customer to enable the City to determine whether a facility is qualified for the Rider. Service under this Rider shall be evidenced by a contract between the Customer and the City substantially in the form included herewith.

CRITERIA

Upon the election of the Customer and acceptance by the City, as evidenced by fully executed contract, the provisions of this Rider are applicable to new industrial customers and to the new facilities of existing industrial customers who expand operations and who meet the following criteria:

1. Annual kW Demand Criterion: The peak demand (over a fifteen (15) minute period) of the new customer or additional facilities is reasonably projected to be at least five hundred (500) kW within two (2) years of the new customer or separately measured/metered facilities expansion first receiving service from City. The new or expanding customer and City will mutually agree upon a capacity expansion plan to be defined in the electric service agreement.
2. Load Factor Criterion: The annual load factor of the new customer or additional facilities is reasonably projected to exceed fifty-five percent (55%) within two (2) years of the new customer or additional separately measured facilities commencing service under this Rider. The customer must maintain an annual load factor exceeding fifty-five percent (55%) or greater in years three (3) through five (5) of the contract to continue to be eligible under this Rider. The customer's annual load factor will be reviewed every twelve (12) months on the anniversary of the commencement date of service pursuant to this Rider. Failure to meet this requirement will disqualify the Customer for service under this Rider effective the end of the twelve (12) month period in which such requirement was not met.

The annual load factor of the customer shall be determined by the following relationship:

$$\frac{\text{Annual Energy (kWh)}/\text{Hours in Year}}{\text{Maximum (peak) Annual Demand}}$$

ELECTRIC ECONOMIC DEVELOPMENT RIDER

The maximum (peak) annual demand is defined as the actual measured demand of the new Customer or facilities during a fifteen (15) minute period during the year.

3. The new or additional facility must also be approved as recipient of local, regional or state governmental economic development incentives at the time the EDR agreement becomes effective.

INCENTIVE PROVISIONS

1. Rate Discount: Prior to taxes, each of the Customer's net bills for qualifying service, calculated in accordance with the Primary Metering rate schedule, will be discounted by thirty percent (30%) for service during the first (1st) contract year, twenty-five percent (25%) for service during the second (2nd) contract year, twenty percent (20%) for service during the third (3rd) contract year, fifteen percent (15%) for service during the fourth (4th) year, and ten percent (10%) for service during the fifth (5th) contract year. After the fifth (5th) contract year, this incentive provision shall cease.
2. Minimum Bill: The minimum monthly bill will be the charge for the minimum monthly Premise Demand Charge at five hundred (500) kW pursuant to the Primary Metering rate schedule. Other provisions of the Primary Metering rate schedule also apply. After the fifth (5th) contract year, this provision shall cease.
3. Local Service Facilities: The City will not require an additional facilities charge or line extension charge for facilities installed to serve the customer if the City's analysis of expected revenues from the new load on an ongoing basis is determined to be sufficient to justify the required investment in the facilities.
4. Separately Measure Service: Qualifying service must be separately metered or sub-metered from service to other facilities.
5. Shifting of Existing Load: For Customers with existing facilities at one (1) or more locations in the City's service area, this Rider shall not be applicable to service provided at any other delivery point prior to Customer receiving service under this Rider. Customer is prohibited from shifting loads from those locations already existing in the City's service area to qualify for this Rider or to receive benefits from this Rider.

LATE PAYMENT CHARGE

Subject to ten percent (10%) late payment charge per thirty (30) day period (or portion thereof) if not paid by the date shown on the bill.

SPECIAL RULES

The voltage, frequency, and phase of all service under this schedule shall be only as specified by the City.

Service under this schedule shall be subject to City Ordinances and the City Policy Manual adopted by Code Section 700.040, including as it may be amended.

Service is furnished for the sole use of the customer on the premise described in the service application. There shall be no resale or submetering of energy for use by others.

Motors served on this schedule shall not exceed a size and design as specified by the City.

The above rate or minimum does not include any Gross Receipts Tax. The Purchase Power and Fuel Adjustment Clause are applicable to all charges under this schedule.

Rider effective as of _____

ELECTRIC ECONOMIC DEVELOPMENT RIDER FORM AGREEMENT

This agreement is entered into as of this _____ day of _____, 20____ (the Effective Date), by and between City of Poplar Bluff (City) and _____ (Customer).

WITNESSETH:

Whereas, the City has a certain Economic Development Rider (Rider) for municipal electric service, and;

Whereas, Customer is a new Customer, or is establishing new and additional separately measured/metered facilities for increased usage with the City's service territory, and;

Whereas, Customer has furnished sufficient information to the City to demonstrate that its new separately measured/metered facilities (Facilities) satisfied the Availability and Applicability provisions of the Rider and Customer specifically represents and warrants that the Facilities will meet the Annual kW Demand Criterion and the Load Factor Criterion of the Economic Development Rider, and;

Whereas, Customer wishes to take electric service from the City, and the City agrees to furnish electric service to the Customer under this Rider and pursuant to all other applicable rate schedules of the City;

Now, therefore, the City and Customer agree as follows;

1. Service to the Customer's Facilities shall be pursuant to the Economic Development Rider, all other applicable rate schedules, and the general rules and regulations applying to electric service, as may be in effect from time to time and approved by the City. This Agreement shall be effective for five (5) years from the above stated Effective Date
2. Customer acknowledges that this Agreement is not assignable voluntarily by Customer, but shall nevertheless inure to the benefit of and be binding upon the Customer's successors by operation of law so long as the successor continues to meet the criteria of the Rider.
3. Customer will furnish additional information, as requested by the City, to assure the continue eligibility for service under the Rider. Customer acknowledges that all information provided to the City for the purpose of determining whether the Customer is eligible for service under the Rider shall be retained by the City, and shall be subject to inspection and disclosure. Should the Customer designate any of such information as proprietary or confidential, City shall notify Customer of any request for inspection or disclosure and shall use good faith efforts to secure an agreement or order protecting the proprietary or confidential nature such information.
4. This agreement shall be governed in all respects by the laws of the State of Missouri (regardless of conflict of laws' provisions), and by the ordinances, rules and regulations of the City, as they may exist from time to time. Nothing contained herein shall be construed as divesting, or attempting to divest, the City of any rights jurisdiction, power or authority vested in it by law.

In witness whereof, the parties have signed this agreement as of the date first above written.

Available to commercial accounts only. Overhead service only.
Private lighting unit requiring a thirty (30) foot wood pole and using existing secondary circuits. A one-time installation fee of \$50.00.
One year's fees will be required to be paid in advance prior to the installation of a rental light.

WATER RATES

RATE

Customer Base Charge.....	\$17.00
Per 1,000 Gallons.....	\$ 3.18

LATE PAYMENT CHARGE

Subject to ten percent (10%) penalty if not paid by the date shown on the bill.

SPECIAL RULES

The above rate or minimum does not include any taxes or state fees.

SEWER RESIDENTIAL RATES

RATE

Class 1

Customer Base Charge.....	\$16.50
Per 1,000 Gallons Water Used.....	\$3.17

Ordinance No. 5129 provides a more complete definition of the user charge to all sewer customers. For the purpose of this chart, the definition of the class is as follows:

Class 1 User – Any single family dwelling user that obtains all of his water from the city water system and discharges only normal domestic wastewater to the sewer system.

LATE PAYMENT CHARGE

There will be no penalty on sewer charges.

SPECIAL RULES

Sewer charges will be deleted where water is used for sprinkling, industrial processes and non-sanitary uses if metered so as to determine water used that is not discharged into the city's sanitary sewer system.

The above rate or minimum does not include any taxes or state fees.

SEWER COMMERCIAL RATES

RATE

Class 2 - Uses up to 4,999 Gallons of Water per Month

Customer Base Charge.....	\$28.75
Per 1,000 Gallons of Water Used.....	\$ 3.17

Class 3 - Uses between 5,000 and 19,999 Gallons of Water per Month

Customer Base Charge.....	\$57.25
Per 1,000 Gallons of Water Used.....	\$ 3.17

Class 4 - Uses between 20,000 and 99,999 Gallons of Water per Month

Customer Base Charge.....	\$97.00
Per 1,000 Gallons of Water Used.....	\$ 3.17

Class 5 - Uses over 100,000 Gallons of Water per Month

Customer Base Charge.....	\$275.00
Per 1,000 Gallons of Water Used.....	\$ 3.17

SEWER COMMERCIAL RATES CONTINUED

Ordinance No. 5129 provides a more complete definition of the user charge to all sewer customers. For the purpose of this chart, the definition of the class is as follows:

Class 2 User - Any school, place of business, church, multi-dwelling residence, industry, office or multi-office building which receives all of its water from the city water system and discharges only normal domestic sewage to the sewer system and whose total monthly water consumption does not exceed 5,000 gallons.

Class 3 User - Any school, place of business, church, multi-dwelling residence, industry, office or multi-office building which receives all of its water from the city water system and discharges only normal domestic sewage to the sewer system and whose total monthly water consumption does not exceed 20,000 gallons.

Class 4 User - Any school, place of business, church, multi-dwelling residence, industry, office or multi-office building which receives all of its water from the city water system and discharges only normal domestic sewage to the sewer system and whose total monthly water consumption does not exceed 100,000 gallons.

Class 5 User - Any school, place of business, church, multi-dwelling residence, industry, office or multi-office building which receives all of its water from the city water system and discharges only normal domestic sewage to the sewer system and whose total monthly water consumption exceeds 100,000 gallons.

Class 6 User - Any user who discharges anything other than normal domestic wastewater to the sewer system.

Class 7 User - Any user who receives his water from a source other than city water supply system and discharges only normal domestic sewage to the sewer system.

Class 8 User - Any user who receives part of his water from the city water system and the remainder of his water from another source or any user who allows rainwater, surface water or ground water to enter the sewer system from his property and who otherwise discharges only normal domestic sewage to the sewer system.

Class 9 User - Any user whose sewage is produced outside of and transported into the city sewer system.

LATE PAYMENT CHARGE

There will be no penalty on sewer charges.

SPECIAL RULES

Sewer charges will be deleted where water is used for sprinkling, industrial processes and non-sanitary uses if metered so as to determine water used that is not discharged into the city's sanitary sewer system.

The above rate or minimum does not include any taxes or state fees.
